Description

Name: Inconsistencies in the functioning of selected themes in the application

Steps:

1. Expanding the drop-down list with themes.
2. Select a theme: Light
3. Select a theme: Dark
4. Select a theme: System
5. Select a theme: High Contrast

Expected Result: Theme changes immediately after selection. The default theme is: Light
Current result: Default theme set to "System". The "Dark" and "System" themes are the same. The "High Contrast" theme does not change the theme.
Environment:
• system type: 64-bit operating system, x64 processor
• version: Windows 10 Home
Priority: Low - cosmetic error. It does not affect the functionality of the application
Repeatability: The error appears every time the application is launched.
