Description

Name: The "End Exam" button does not end the exam in the exam panel.

Steps:

1. Pressing the "Exam" button
2. Selecting the number of questions from the drop-down list.
3. Pressing the "Start Exam" button
4. Answer the selected number of questions.
5. Press the "End Exam" button.
6. Selecting "Yes" in the window that appears.

Expected result: Completion of the exam and transfer to the "History" tab, where the results of the last exam are at the top of the list.

Current result: The button does not end the exam. The message window disappears and the user remains in the examination panel for the last question.

Environment:

• system type: 64-bit operating system, x64 processor
• version: Windows 10 Home

Priority: High - An error prevents you from using the declared application function

Repeatability: The error appears every time the application is launched.
