Description

Name: The "Next" button has the functionality of the "Undo" button
Steps:

1. Pressing the "Exam" button
2. Selecting the number of questions from the drop-down list.
3. Pressing the "Start Exam" button
4. Select the answer.
5. Press the "Undo" button.
6. Press the "Next" button.

Expected result: Selection of the next question. For the last question, the "Next" button is disabled.

Current result: The "Next" button located on the left where the "Back" button should be is active for the 2nd and subsequent questions. Allows you to go back to the previous question.

Environment:
• system type: 64-bit operating system, x64 processor
• version: Windows 10 Home
Priority: Medium - it is possible to perform the test, but you need to find the right button.
Repeatability: The error appears every time the application is launched.
